

Understanding ISO 14001:2004 Environmental Management System (Plexus Curriculum) – SC-410

Instructor: Art Crowley

Adherence to environmental guidelines is rapidly becoming a common business practice and requirement. This course prepares participants for ISO 14001:2004 by examining it clause by clause.

CEUs: 1.4 RU's: 1.4 Required for ISO 14001:2004 EMS Internal Auditing, SC 420

WHAT YOU WILL LEARN:

- How ISO 14001:2004 applies to different organizations
- A practical application of each of the ISO 14001:2004 clauses and how they relate to the intent of the Standard
- Create a basic non-business model or metaphor for elements of the standard – something that has inputs, transformation and outputs as any business would have
- Identifying aspects and targets
- Preparing an implementation strategy
- How to develop and utilize Turtle Diagrams.

LEARNING MODEL

- Learning is maximized through participation.
- Lecture-based teaching is avoided
- The focus is on group activities, case studies and hands-on applications.

WHO SHOULD ATTEND

- Any member of an ISO 14001:2004 implementation team
- Representatives from key functional groups involved in an organization's environmental management system

PREREQUISITES

None

SCHEDULE

- 2-Day session, 8:30AM-4:30PM, Course Fee: \$ 700.00.
